

The Brody School of Medicine
MISSION CHAMPION

Dr. Carl Haisch

**Vice Chair of Education, Professor of Surgery,
Surgical Immunology & Transplantation**

The Mission Champion Award honors and recognizes the value that faculty and staff bring to the Brody School of Medicine

Nomination of Carl Haisch, MD for the Mission Champion Award

The Division of Transplantation and Immunology, along with the Department of Surgery, would like to nominate Dr. Carl Haisch for the Mission Champion Award.

Dr. Haisch has served the Brody School of Medicine for over 30 years since he arrived to run the transplant program in 1992. During that time, Dr. Haisch has served as the program director in General Surgery. He has served as the Associate Dean for Faculty Affairs and the Associate Dean for Student Affairs.

Dr. Haisch has served in the Divisions of Transplantation and Trauma. He has served as the Vice Chair for Education. He has been recognized as a Master Educator on a National and International basis. Dr. Haisch has been tireless in his service to the people of Eastern North Carolina and to East Carolina University by providing leadership and excellence in multiple different areas during his tenure. Whenever the Brody Medical School or ECU Health Medical Center has needed him, he has responded with humility and competence.

It is only fitting, that as he enters his final years in phased retirement, that we recognize his more than three decades of work with the Mission Champion Award. I know of no other person who deserves this award more.
